

Wire Transfer Payments

Wire Transfer is an available option to pay for your WERCSmart Subscription. We need to be sure our accounting department has the funds from the wire transfer before your account will be able to submit items through the shopping cart. Depending on your company's location, Wire Transfers can take 1-3 business days (Domestic/US) and up to 15 business days (International) to have the funds received and applied to the account.

When utilizing Wire Transfer as your payment option, your WERCSmart Company Name and invoice(s) that payment is to be applied to **must** be included on the transfer document.

Once you have initiated your Wire Transfer, please send an email to nbk.strcashapplication@ul.com and provide details of the wire transfer. This will assure that once the funds arrive, they may be applied in a timely manner.
